

BEACH & GROUND MATTING SYSTEMS

« F2A PRM BEACH MATS ARE DESIGNED TO MAKE OUTDOOR SPACES, ESPECIALLY BEACHES, EASIER FOR EVERYONE TO ENJOY. »

F2A PRM Beach Mat

NON-WOVEN POLYESTER ROLL OUT MAT

Whether you're with a hotel, resort, city, county, national or state park, nonprofit organization, or simply someone who wants to make the beach more welcoming, F2A PRM BEACH MAT is the perfect solution.

Designed to exceed the accessibility norms, F2A PRM BEACH MAT helps create safe, easy pathways for people of all abilities to enjoy the beach. It's a simple, meaningful way to show your commitment to inclusion and to make every visit a little more memorable.

CONNECTOR & HARDWARE SYSTEM

Our **heavy-duty connectors** are designed to stay secure under tension, ensuring a reliable connection between mats. To link two mats, simply insert our innovative plugs into the connector holes for a smooth, seamless join.

The entire system is **100% barrier-free** and fully compliant with accessibility norms. Offering safe and accessible transitions for all users.

“ Whether you need a permanent path or a temporary access route, F2A PRM BEACH MAT offers a simple, portable solution that rolls out quickly and works beautifully for people using wheelchairs, walking aids, strollers, or just bare feet. It's durable, easy to install, and ideal for sandy environments where access matters most. ”

SMART DESIGN, SEAMLESS INTEGRATION

F2A PRM BEACH MAT doesn't just perform well, it looks great too. Its thoughtfully chosen colors offer both function and visual appeal. The blue option provides high visibility, making access routes easier to spot for those with visual impairments. The brown and tan option blends naturally into outdoor settings like parks and beaches for a more subtle look.

BETTER ACCESS, BETTER VALUE

F2A PRM BEACH MAT offers one of the most cost-effective ways to create a reliable beach access route. It delivers exceptional value without sacrificing performance. Unlike many competitors whose products require frequent replacements, complex installation, or high maintenance costs, F2A PRM BEACH MAT is built for **long-term use** with minimal upkeep. It's an economically beneficial solution that saves time, effort, and money, while ensuring high-quality access for all.

COMFORT FIRST, SAFETY ALWAYS

F2A PRM BEACH MAT is designed with people in mind, especially those barefoot on the sand. Its soft, non-woven polyester surface stays cooler under the sun, making it far **more comfortable** to walk on during hot summer days. No sharp edges, no harsh seams, just a smooth, gentle surface that's **kind to bare feet and hands**.

F2A PRM BEACH MAT also provides a safer grip for all users, including children, seniors, and those using mobility devices, and because its edges don't require extra finishing, there's less risk of cuts during setup or takedown. It's all about easy, safe access, no stress, and no worries.

FAST SETUP, EASY CARE

F2A PRM BEACH MAT is designed to make your life easier. Two people can roll out a 1,52 m wide x 30 m long section in under 10 minutes, no heavy equipment needed. When it's time for cleanup, maintenance is minimal. Just sweep, blow, or rinse with a pressure washer. Thanks to its water **permeable** structure, sand naturally sifts through, keeping the surface clear and ready to use.

SUSTAINABLE MATERIALS, MINIMAL IMPACT

F2A PRM BEACH MAT is designed with sustainability in mind. Made from **Recycled UV-stabilized polyester**, it is fully recyclable after use, helping to reduce environmental impact. It can be installed and removed easily in accordance with environmental regulations, making it a responsible choice for protecting the natural beauty of beaches and outdoor spaces.

TOUGH BUILD, LIGHT FEEL

F2A PRM BEACH MAT is built to last. Its edges **won't fray**, and the surface **resists wear and tear** with regular use and proper care. Thanks to its strong yet lightweight construction, it's easy to carry, weighing just 2,2 kg / m², and can be handled by one or two people with ease.

The non-woven polyester material offers the best of both worlds: strength and flexibility. It stays firm over soft sand while gently adapting to uneven terrain. And when the season ends, simply roll it up and store it, no fuss, no buildup. Unlike some competitor products, sand won't get trapped underneath, so your mat stays just as light as the day you first laid it down.

F2A PRM BEACH MAT is backed by a **5-year warranty**, giving you long-term confidence with every installation.
